

I am writing in support of keeping K-LOVE on the air and not have it taken over by an LPFM station. I have listened to K-LOVE for a year now and enjoy it's commercial free music programming. My husband and I support them with a monthly donation. The music they play is positive and uplifting Christian music unlike the secular (negative/suggestive lyrics)music heard on every other station. It would be devastating to a million people across the USA that listen to K-LOVE, if this station were to seace operations because of an LPFM station taking over the airwaves. Please don't let this happen, so we can keep decent, good music for our young people and adults on the air. With so many bad things in this world today, lets keep something good. Thanks.
